Gill Bros.' Wholesale List of Dahlias

TO THE TRADE ONLY

We are prepared to offer the very best of Dahlia bulbs, grown at our own farm, on upland. We have the most complete list of Dahlias in the West and if you look our list over carefully you will find your needs there. The bulbs grown here are hard and well matured and have exceptionally fine keeping qualities.

Our prices are as reasonable as good Dahlias can be grown and kept true to name. We use the utmost care in handling our Dahlias and guarantee them true to name, being responsible to the amount of the purchase price only.

PRICES—The following prices are F. O. B. Portland, Ore., and include boxing and packing. The prices in the first column are on lots from 3 to 10, the second for lots from 10 to 100 bulbs.

The prices in this list are for divisions from field grown clumps with good eyes. These prices hold good until July 1, 1913. Those wishing prices on Dahlias by the whole clump will please write for prices.

TERMS—Cash with order or 30 days upon satisfactory reference.

GILL'S LIST OF NOVELTIES AND SUPERIOR SORTS

Ami Barillet—Single. This is the dark foliage Dahlias. The foliage is a purplish-black color throughout the whole plant, the flowers a rich garnet borne on a dwarf plant. This is something unusual and will command attention in any garden. 12c 10c.

Aristed Gurtler—Cactus. Color mars orange, suffused with scarlet, composed of long, narrow petals slightly incurved. 12c 10c.

Caesar—Peony. Canary yellow, beautiful fluffy flowers of extra large size. 12c 10c.

Delicatissima—Cactus. The most delicate colored Dahlia to date, color tender hydrangea-pink with lighter shadings. 17c 15c.

Foxhunter—Cactus. A beautiful flower of bright scarlet petals, long, narrow and straight. Flowers of good size and free bloomer. 12c 10c.

Gondola—Cactus. Clear, rosy pink with long, narrow, incurved petal resembling a chrysanthemum in form. This is of the best pink Cactus we have yet seen. 12c 10c.

Mrs. McMillian—Cactus. One of the freest bloomers in our field. Yellowish white at base, passing to purplish mauve, suffused with shade of pink in the body of the flower. 12c.

Mrs. Henry Wirth—Cactus. A grand, free-blooming Dahlia; of rich geranium red, fine form, one of our best red Cactus. 12c 10c.

Mme. Heine Furtado—Show. The best of the pure white show Dahlias. Its large flowers borne on strong upright stems, together with its freedom of blooms and lasting qualities makes this one of the best Dahlias for cut flowers. 10c 8c.

Nerthus—Cactus. One of the best of recent German introductions. The center of the flower is a rich, glowing, bronzy, orange yellow, passing to carmine rose at the tips. The flowers show to good advantage on upright stems. 25c 22c.

Rheinkonig—Cactus. Freest flowering of the white cactus sorts. Pure white of good form. 20c 18c.

Rev. A. T. Bridge—Cactus. One of the finest cactus to date. A bright, clear yellow, tipped and suffused with a bright, deep rose pink, beautifully incurved. 20c 18c.

T. G. Baker—Cactus. The best yellow cactus Dahlia we have seen. Large, well formed flowers on stiff stems. 12c 10c.

Tressie—Cactus. Immense blooms, brilliant deep scarlet, petals slightly incurved, the center petals have a peculiar side twist that give it a very artistic effect. This is without doubt one of the best red Cactus to date. 20c 18c.

Vater Rhein—Cactus. Flowers often 7 inches across, on long stems well above the foliage, petal broad, curled and twisted; yellow suffused with salmon rose. It is very recent introduction and one of the best. 22c 20c.

Wodan—Cactus. Enormous blooms, often over 7 inches in diameter; semi-incurved, tubular petals, of delicate salmon rose color, shading to old gold in the center. 25c 23c.

Yellow Colosse—Decorative. Best yellow Decorative to date. Immense blooms of pure primrose yellow. Extra free flowering. 12c 10c.

NEW DAHLIAS ORIGINATED BY GILL BROS.

Garnet Queen—Peony 1913. The first garnet colored Peony Dahlia. While the plants are rather dwarf they are simply loaded with graceful, artistic flowers held on good long stems. As a cut flower it has few equals. Its color is a deep, glossy garnet, a color that

holds fine in the brightest sun. This is the first time this Dahlia has been cataloged and we own exclusive stock. 50c.

White Lily—Single 1913. There are few Dahlias in existence that will produce more blooms than this single variety. The petals

NEW DAHLIAS ORIGINATED BY GILL BROS.—Continued

are pure, waxy white, the center a bright golden yellow, giving to the whole flower a lily effect.
10c 8c.

Oregon Beauty—Peony. This new peony-flowered Dahlia is the result of a seedling from William Agneau, probably crossed with Twentieth Century. A giant in size; often 8 inches in diameter, it combines with it rare color, which is a bright fiery scarlet, overlaid with a golden sheen, the most distinct form of any Dahlia yet introduced. The opening flower is like a full decorative bloom, of a deep fiery scarlet; when fully out the color is a shade lighter, a portion of the older petals curving towards the stem, the newer petals coming out nearly flat, giving it a peony form. With its gorgeous golden sheen overlaying the whole flower, its color the brightest scarlet we have yet seen, its enormous blooms held on long stems and produced freely by a vigorous plant, it is indeed a worthy Dahlia for any garden.
20c 18c.

Spirit of the Golden West—Show 1912. A new show Dahlia; in color a deep saffron yellow, tipped and overlaid with the rich rosy red of the sunset. Flowers of good size, full and double and held boldly up on long, stiff stems. It will last a week as a cut flower. No description can give you an idea of the beauty of this Dahlia.
20c 18c.

J. J. Johnson—Show 1912. One of the freest flowering Dahlias in our whole grounds. The flowers are a rich maroon occasionally marked with garnet, sometimes coming a carmine rose. The plant is dwarf and bushy and every flower is produced on extra long stems that lift them free above the foliage

so that every flower shows. This is a splendid cut flower and fine also for massing. It is hardly a true type Show Dahlia, being about half way between the Decorative and Show type.
40c.

Poppy King—New Decorative, with flowers which somewhat resemble a large double poppy and having a poppy scent. Well formed bushes, loaded with rich blood red blooms.
10c 8c.

Splendid—This is a single Dahlia similar to the Twentieth Century, but of a far richer color, being a deep rich crimson marked at tips with white. This attracted much attention in our grounds last summer.
10c 8c.

Multnomah—Grand new Decorative Dahlia. The center is clear yellow, shading to orange, tinted with rose. The petals are broad and curve to the stem, making a full globular flower. Makes a fine bushy plant loaded with these large blooms. One of the best of its color.
12c 10c.

Crazy Quilt—Decorative. One of the oddest Dahlias ever introduced. Hardly two flowers come alike; some are pure sulphur yellow, some yellow with white centers, others pure white, some white with yellow collar and again others white with yellow markings through each petal. Often borne in clusters, making the plant just a mass of bloom. Flowers medium size, held on long stems.
10c 8c.

Tillamook—A companion to that grand old Dahlia, Grand Duke Alexis, it differs in color, being a delicate blush, deepening at the tips to rose pink. Its pleasing color, combined with its large size and free blooming habit will make this a prize winner.
12c 10c.

GILL'S GENERAL LIST OF DAHLIAS ARRANGED IN CLASSES.

We have had a heavy run on Dahlias and our stock on several sorts is nearly exhausted however we can offer a good stock in the following list in good strong bulbs.

For those who wish Dahlias with good cut flower qualities, that is, good stems and lasting qualities, we have indicated such varieties in our list by placing a * in front of each name.
